AIT-BUDAPEST

AQUINCUM INSTITUTE OF TECHNOLOGY

# AIT PROVIDES AN INTIMATE AND CREATIVE LEARNING ENVIRONMENT FOR UNDERGRADUATE COMPUTER SCIENCE AND SOFTWARE ENGINEERING MAJORS.

## FEATURES OF THE PROGRAM INCLUDE:

- Small classes taught in English by Hungarian professors of international renown
- Foundational courses in computer science, creative design, and entrepreneurship
- Advanced applications courses in areas such as computational biology, mobile software development, and cryptography
- Hungarian language and humanities courses related to Hungary's rich cultural heritage
- Beautiful state-of-the-art campus shared with multinational IT and pharmaceutical companies
- Extracurricular activities and opportunities to explore Europe

**Kevin Nguyen**  
(Pomona College):

*"AIT gives me an educational and cultural experience that will last me a lifetime. Being in Budapest surrounded by friendly Hungarians and brilliant peers has made my experience here something I will never forget."*

**Emma Meersman**  
(Harvey Mudd College):

*"Spending the semester at AIT allowed me to increase both my cultural awareness and technical knowledge. I got to meet so many amazing and intelligent people through the program."*

**Joseph Perla**  
(Princeton University):

*"I'm really glad I came to Budapest because the city is beautiful, Hungarians are incredibly friendly, and the other students are brilliant. I didn't know anything about Hungary before AIT, so I feel very lucky to have found out how perfect this program was for me."*
